Beyond Black is a groundbreaking study of the dynamic meaning of racial identity for multiracial people in post-Civil Rights America. Kerry Ann Rockquemore and David Brunsma document the wide range of racial identities that individuals with one Black and one White parent develop, and they provide a incisive sociological explanation of the choices facing those who are multiracial. Stemming from the controversy of the 2000 Census and whether an additional 'multiracial' category should be added to the survey, this second edition of Beyond Black uses both survey data and interviews of multiracial young adults to explore the contemporary dynamics of racial identity formation. The authors raise even larger social and political questions posed by expanding racial categorization on the U.S. Census.
