X Power Tools Chris Tyler

This book puts you in charge of the most flexible and adaptable graphical interface in the computer industry. The X Window System underlies graphical desktops on Linux and Unix systems, and supports advanced features of modern graphics cards. More people use the X Window System than ever before, but there are few books about X in print. *X Power Tools* fills that hole with the most practical and up-to-date information available.

Written in O'Reilly's popular Power Tools format, *X Power Tools* offers dozens of standalone articles, thoroughly cross-referenced, on useful tools and techniques for using X. This unique inside look at X gives Unix/Linux system administrators, owners of self-administered systems, and power users a lot of useful ways to harness the power of this system effectively. This book:

- Offers a thorough grounding in X configuration and how the system works
- Provides the complete ins and outs of changing a desktop's behavior, such as fonts, keyboard settings, and remote security
- Includes articles on how to take advantage of X's "network transparency" -- its ability to display graphical applications on a remote machine
- Explores intriguing areas such as using multiple monitors, building kiosks, and accessibility
- Features discussions on X Window innovations and the future of the system

X Power Tools covers configuration and use of X, focusing on Linux but also including notes on other operating systems such as Solaris and FreeBSD. Each article in the book gives you insight into X; the entire book gives you a real grasp on this system and what you can do with it.

From reader reviews:

Mike Munguia:

Do you have favorite book? In case you have, what is your favorite's book? Book is very important thing for us to be aware of everything in the world. Each reserve has different aim or goal; it means that reserve has different type. Some people truly feel enjoy to spend their a chance to read a book. They are really reading whatever they have because their hobby is definitely reading a book. Why not the person who don't like reading a book? Sometime, individual feel need book once they found difficult problem or maybe exercise. Well, probably you will require this X Power Tools.

Nicholas Poston:

What do you with regards to book? It is not important along? Or just adding material when you want something to explain what the ones you have problem? How about your spare time? Or are you busy particular person? If you don't have spare time to try and do others business, it is make you feel bored faster. And you have time? What did you do? Every person has many questions above. They must answer that question since just their can do this. It said that about publication. Book is familiar on every person. Yes, it is appropriate. Because start from on jardín de infancia until university need this kind of X Power Tools to read.

Jennifer Wetzel:

Reading a publication can be one of a lot of task that everyone in the world really likes. Do you like reading book and so. There are a lot of reasons why people love it. First reading a reserve will give you a lot of new info. When you read a reserve you will get new information simply because book is one of a number of ways to share the information or their idea. Second, reading a book will make an individual more imaginative. When you reading a book especially fiction book the author will bring you to imagine the story how the character types do it anything. Third, you may share your knowledge to some others. When you read this X Power Tools, you can tells your family, friends and also soon about yours reserve. Your knowledge can inspire the mediocre, make them reading a reserve.

Sheila Messina:

Is it you who having spare time and then spend it whole day by watching television programs or just laying on the bed? Do you need something new? This X Power Tools can be the answer, oh how comes? The new book you know. You are therefore out of date, spending your spare time by reading in this completely new era is common not a nerd activity. So what these publications have than the others?
