He's been loved and admired as a woman's escort since he was a teenager. Who in the world would want to read a book about a man who became a woman's escort at that age but then went on to start his own business that services women only?

The man this book is about became a woman's escort at 16-years-old in 1993 but was killed 3 times in a bad car crash in 1994 when he smashed his skull at 80 mph. After his recovery, the young man just kept pressing on and didn't give up till he became the best professional companion w/benefits for women only in the world a few short years later even though he will always have severe brain damage and had both of his legs shattered from the knees down in 1997.

God is the reason this man is still alive today, god is the reason he's been able to learn as much about pleasing a woman sexually as he has and god is the reason we are all able to enjoy the pleasures of sex as much as we do. This book details or explains "everything" the man has learned about pleasing a woman too.

The authors of this book consist of mr. michael and his bff or best female friend and he asked that I help tell the story about his life so it would have a touch of the female perspective or point of view. My friend is a very bold man and he shares 2 great pictures of his penis in the book for any woman who may be interested in becoming a client of his to see.

I do not reveal my name or any other identifying factor but I explain in the book when and how the two of us met along with the reason I have been deeply in love with the man for most of my life or since 1985.

Michael is living out the rest of his days as a permanently disabled escort who loves what he gets paid to do for women. Hiring him to be your lifelong companion is the only way to be part of his life though.
