## **Globocop: How America Sold Its Soul and Lost Its Way** Mark David Ledbetter

The two post 9-11 presidential elections offered America a choice between big-government, high-tax globocops quibbling over the details, not an alternative to the aggressive international militarism that makes America the natural and logical target of terrorism. This book looks at the progression from republic protected by militia to empire protected by standing armies in Athens and Rome - and the similar progression in America. It looks at an alternative: The Swiss way, which has kept Switzerland free and republican for 700 years in the center of a warlike continent. America once understood and followed Washington's Great Rule and J. Q. Adams' admonition not to go out into the world in search of monsters to destroy. America was then the light of freedom, not the sword. Now it has picked up the sword only to see the light grow dimmer year by year.
