The Sun, the Moon, and Silver Market: Secrets of a Silver Trader Raymond Merriman

An excellent book for those who are primarily interested in timing the Silver market in 2-3 day intervals. Although the book thoroughly covers a long-term approach to trading Silver - for moves of 10% or more - it is a quantitative study that is more focused upon the shorter term moves of only 3% or greater. It is very effective for catching the short-term swings in Silver prices. Definitely for those who are interested in trading with moon signs and phases.
