You Can Draw Anything Kim Gamble

If you look, really look, and see the lines and shapes that things are made of, you can draw anything

A popular picture-book illustrator shows kids how they can draw anything they want. Kids will learn that if they can write numbers and the letters A-Z, they can draw anything. With step-by-step guidance, helpful tips, and flip pictures, he shows how to draw animals, faces, bodies, people in action, buildings, machines, and anything else kids can think of. He also covers giving pictures depth, using perspective, and using light and shade. Plenty of stories, jokes, and examples make this approach to drawing intriguing, effective, and fun.
