Stanley Hoffmann

World Disorders: Troubled Peace in the Post-Cold War Era Stanley Hoffmann

Stanley Hoffmann has remarked that 'It wasn't I who chose to study world politics. World politics forced themselves upon me.' Long one of the field's most distinguished thinkers, Hoffmann brings together in this volume his recent work on international politics. These essays offer incisive reflections upon the reemergence of nationalism and ethnic conflicts in Europe, the redefined role of military intervention, and other uncertainties brought on by the demise of the Cold War. Hoffmann weighs the influence of such disparate figures as John Rawls, Hedley Bull, and George Schultz. Woven throughout are his clear-eyed assessments of contending approaches to the study of international relations.
