Courtney Love. The girl with the most cake. The girl with the loudest mouth and the fiercest guitar. The girl of many talents -- not least among them the power to shock. Not since Madonna declared that she was like a virgin has someone in the public spotlight so consistently challenged the notion of what it means to be female -- and what it means to be well behaved. In "Courtney Love: The Real Story, " Poppy Z. Brite tells the whole truth about the lead singer of the band Hole and uncovers more about this pop culture heroine than any music magazine could ever hope to.

Brite also sets the story straight about Love's life with Kurt Cobain, the allegations of her drug use that surrounded the birth of their daughter, Frances Bean, and the wreckage of Cobain's suicide. But what emerges out of all the drama is a woman determined not only to survive, but to succeed more than anyone ever expected. As seen from her stunning performances as the wife of the publisher of "Hustler" magazine in "The People vs. Larry Flynt, " and her transformation into a runway acolyte, she just may catapult herself out of the mosh pit and into the mainstream.
