How to Date Your Wife Stan Cronin

Author Stan Cronin's curiosity led to his writing this unique book! He devised and circulated a very detailed questionnaire in which he asked wives about their dating relationships with their husbands. More than a thousand wives responded, and brother, did they unload on him! They wrote very frank replies revealing both the good and bad traits of their husbands, and expressing exactly what they desired in their husband-wife relationships. Personal desires and viewpoints varied, of course, but their cumulative answers sent some strong signals to the husbands of today.

Armed with their insights, Stan has written *How to Date Your Wife*--a book that can bring very large doses of happiness to marriages if the husbands will read the book and apply it. And wives, if they are wise, will do well to put the book in their husband's hands at their earliest opportunity.

This book is about change! It proposes that a husband's primary goal needs to be to make his wife happy, and then it gives some very valuable instructions on how to make that goal a reality, using dating as the operative mechanism. In addition to focusing on improving a couple's interpersonal relationships, Stan gives very concrete suggestions for a wide variety of dating experiences.

This is a truly valuable book for you, whether you are a wife or a husband! Read it, sow the seeds it provides, nourish them, and then together with the one you love, harvest the rich rewards of marital happiness which it advocates for you. It can change your life!
