Launch will build your business - fast. In the book, a New York Times Number One bestseller, Jeff Walker reveals how to sell anything online, make a fortune and fulfil your dreams. Whether you've already got a business or you're itching to start one, this book provides the perfect recipe for how to do it. No wonder Brendon Burchard called it 'the most important book ever written on online marketing'. What if you could launch like Apple or one of the big Hollywood studios? What if your prospects eagerly counted down the days until they could buy your product? What if you could create such powerful positioning in your market that you could all but eliminate the competition? And you could do all of that, no matter how humble your business or budget? Since 1996 Jeff Walker has been creating hugely successful online launches. After building his first internet business from his basement, he quickly developed a process for launching new products and businesses with unprecedented success. Once he started teaching his formula to other entrepreneurs, the results were simply breathtaking. Launch is the guide to that world where digital entrepreneurs create amazing new triumphs. So whether you're an existing business, or want to develop your own products, or you are still at the planning stage, this is how you start fast and change the future of your business and your life.
