La Vida Secreta Del Agua/ the Secret Life of Water (Spanish Edition) Masaru Emoto (Author)

Extending from the international best seller *The Hidden Messages in Water*, *The Secret Life of Water* focuses on how prayer is able to affect not only water in a curative way. According to the author, water can act as a mirror reflecting the human heart and the current water situation is serious. He argues that prayer is the first step toward healing, and documents the power of prayer when people gather, outlining several experiments in which water has revealed visually how prayers can change the world.
