Learning ArcGIS Geodatabase

Hussein Nasser

Learning ArcGIS Geodatabase Hussein Nasser

An all-in-one start up kit to author, manage, and administer ArcGIS geodatabases

About This Book

- Covers the basics of building Geodatabases, using ArcGIS, from scratch
- Model the Geodatabase to an optimal state using the various optimization techniques
- Packed with real-world examples showcasing ArcGIS Geodatabase to build mapping applications in web, desktop, and mobile

Who This Book Is For

This book is aimed at geospatial developers who want to work with ArcGIS geodatabases as well as manage them. Having knowledge of building a geodatabase from scratch isn't a must; *Learning ArcGIS Geodatabases* is ideal for those who want to use ArcGIS geodatabase for the first time, or for those who want to migrate from their existing legacy database to a geodatabase.

What You Will Learn

- Explore the benefits of geodatabases with practical illustrations
- Work with geodatabase datasets covering feature classes, tables, relationship classes, coverage, and annotations
- Model your geodatabase by creating a sturdy design that can sustain large edits and decrease maintenance
- Discover various tools to optimize queries and response time, which will help you to fine-tune your geodatabase
- Utilize Python scripting to author your geodatabase programmatically
- Set up and configure a full-fledged networked enterprise geodatabase using ArcSDE technology
- Add programming flavors to your geodatabase using Python

In Detail

ArcGIS is an industry standard for geospatial development and management. A geodatabase is the database used to store and manage the spatial data.

Learning ArcGIS Geodatabases offers a comprehensive working and practical experience for readers who are interested in knowing about ArcGIS. The initial chapters guide you through authoring geodatabases and creating a geodatabase schema and datasets. Then, the book focuses extensively on modeling and optimizing geodatabases.

Finally, you will be able to work comfortably with datasets, annotations, and relationship classes, making it easier to migrate from a legacy database to an ArcGIS geodatabase.

From reader reviews:

Patricia Howard:

The book Learning ArcGIS Geodatabase make one feel enjoy for your spare time. You may use to make your capable a lot more increase. Book can to be your best friend when you getting strain or having big problem with the subject. If you can make reading a book Learning ArcGIS Geodatabase being your habit, you can get far more advantages, like add your own personal capable, increase your knowledge about a number of or all subjects. You could know everything if you like start and read a guide Learning ArcGIS Geodatabase. Kinds of book are a lot of. It means that, science guide or encyclopedia or other individuals. So , how do you think about this reserve?

Eldon Hall:

Information is provisions for people to get better life, information nowadays can get by anyone with everywhere. The information can be a expertise or any news even a huge concern. What people must be consider if those information which is from the former life are challenging to be find than now could be taking seriously which one is appropriate to believe or which one the particular resource are convinced. If you have the unstable resource then you understand it as your main information there will be huge disadvantage for you. All those possibilities will not happen within you if you take Learning ArcGIS Geodatabase as your daily resource information.

Doris Avey:

The e-book untitled Learning ArcGIS Geodatabase is the reserve that recommended to you to see. You can see the quality of the guide content that will be shown to you. The language that article author use to explained their ideas are easily to understand. The writer was did a lot of investigation when write the book, and so the information that they share for you is absolutely accurate. You also can get the e-book of Learning ArcGIS Geodatabase from the publisher to make you considerably more enjoy free time.

Andre Barrett:

As a student exactly feel bored to help reading. If their teacher asked them to go to the library in order to make summary for some guide, they are complained. Just small students that has reading's soul or real their pastime. They just do what the teacher want, like asked to the library. They go to right now there but nothing reading critically. Any students feel that reading through is not important, boring as well as can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. So , this Learning ArcGIS Geodatabase can make you sense more interested to read.
