Engineering Science W. Bolton, Bill (William) Bolton

Engineering Science is a comprehensive textbook suitable for all vocational and pre-degree courses. Taking a generic approach, the essential scientific principles engineering students need for their studies are presented topic by topic. Unlike the majority of texts available on this subject, Bill Bolton goes beyond the core science to include the mechanical, electrical and electronic principles needed in the majority of courses.

A concise and accessible text is supported by numerous worked examples and problems, with a complete Answer Section at the back of the book. Now in its fifth edition, the text has been fully updated in line with the current BTEC National syllabus and includes a grid mapping the chapters to the BTEC units. The breadth of coverage means this fifth edition will also prove an essential reference for students embarking on HNC and Foundation Degrees, who require a general introduction to this subject area.

New for this edition is online lecturer support available from <http://textbooks.elsevier.com> and featuring:

- Key points, definitions and equations from the book for use as handouts
- Multiple Choice Questions
- Answers to the Multiple Choice Questions
- PowerPoint slides featuring essential illustrations per topic area for use in lectures or as handouts

From reader reviews:

Frances Carpenter:

Reading a reserve can be one of a lot of task that everyone in the world really likes. Do you like reading book therefore. There are a lot of reasons why people enjoy it. First reading a guide will give you a lot of new information. When you read a reserve you will get new information mainly because book is one of a number of ways to share the information or even their idea. Second, reading a book will make you more imaginative. When you examining a book especially fiction book the author will bring that you imagine the story how the characters do it anything. Third, you could share your knowledge to other people. When you read this Engineering Science, you can tells your family, friends along with soon about yours book. Your knowledge can inspire average, make them reading a publication.

Cesar Smith:

People live in this new day of lifestyle always aim to and must have the extra time or they will get lot of stress from both daily life and work. So , if we ask do people have extra time, we will say absolutely of course. People is human not really a robot. Then we inquire again, what kind of activity are you experiencing when the spare time coming to you actually of course your answer will unlimited right. Then ever try this one, reading guides. It can be your alternative throughout spending your spare time, the actual book you have read will be Engineering Science.

Anita Jones:

Are you kind of occupied person, only have 10 or perhaps 15 minute in your day to upgrading your mind expertise or thinking skill possibly analytical thinking? Then you are having problem with the book when compared with can satisfy your small amount of time to read it because this time you only find guide that need more time to be examine. Engineering Science can be your answer as it can be read by you actually who have those short free time problems.

Wanda Sousa:

Do you like reading a publication? Confuse to looking for your best book? Or your book has been rare? Why so many problem for the book? But any kind of people feel that they enjoy for reading. Some people likes reading, not only science book but additionally novel and Engineering Science or maybe others sources were given knowledge for you. After you know how the fantastic a book, you feel would like to read more and more. Science reserve was created for teacher as well as students especially. Those publications are helping them to bring their knowledge. In other case, beside science reserve, any other book likes Engineering Science to make your spare time far more colorful. Many types of book like here.
