Practice Your Spanish! #4: Reading and translation practice for people learning Spanish (Spanish Practice) Sam Fuentes

This book is not for beginners. It is for those already learning Spanish who want to **improve their Spanish language skills**. The idea is simple: lots of bilingual texts (Spanish-English) to practice reading comprehension and develop vocabulary, plus exercises to translate single sentences from English into Spanish.

Everything is in Spanish and English, so exercises are **useful to readers of different levels of ability in Spanish**. However, the book is aimed primarily at **high school and college students of Spanish**, those preparing for **Spanish SATs**, or anyone else who has already acquired a working knowledge of the language.

There are five units in the book, each one offering a mixture of single sentences and longer texts. Every example of Spanish is followed (usually on the next page) by a translation into English. This allows readers to 'click' through as much material as they want, even if it's just a sentence or two at a time. Unit Three is devoted entirely to one very long text, and includes comprehension questions.

This book is not a textbook and **contains no grammar exercises!** It is an additional resource to help learners of Spanish improve their language skills. However, the texts themselves contain **a wide variety of grammatical structures, tenses, and set expressions in Spanish**. The **vocabulary is also rich and varied**. But don't worry if you don't understand everything--a full translation into English is just one click away!

A note on the translations. We have tried to provide useful, straightforward translations of all material in this book. But remember that there are potentially many different ways of translating any sentence.
